## For Immediate Release

### Joint Venture between Perma-Pipe and Bayou set to expand coverage in Western Canada dramatically

**Alberta** - Tundra Boiler and Instrumentation Ltd. is proud to announce the joint venture partnership of Perma-Pipe and Bayou to form Bayou Perma-Pipe Canada (BPPC). Tundra represents Perma-Pipe pre-insulated piping throughout Western Canada. Tundra will be proud to represent BPPC in the sale of insulated piping products.

BPPC a joint venture between The Bayou Companies, Inc. (Bayou) and Perma-Pipe, Inc. has been formed with the recent acquisition of Garneau, Inc. pipe coating and insulation assets located in Camrose, Alberta, Canada. The Camrose facility consists of a 65,000 sq ft shop with two coating lines (to process 2 inch to 60 inch diameter pipes) and over 100 acres of pipe storage area. The facility has access to truck and rail loading and unloading and can handle up to 10 rail cars at one time. The BPPC Camrose facility will soon provide enhanced services, including double jointing, improved insulation products with heat tracing, concrete weight coating, an additional wheelabrator for increased blasting capability and the latest coating technology. BPPC provides the following products:

- Fusion Bonded Epoxy
- Abrasion resistant overcoating
- Rubberized adhesive
- Ultrafoam Insulation systems
- ID coating
- Xtru therm and Hi gard insulation systems
- 3 layer polyethylene coating

The Bayou Companies (headquartered in New Iberia, Louisiana with three coating facilities) has over 65 years experience in the pipeline industry. Bayou's parent company, Insituform Technologies, Inc is a leading worldwide provider of proprietary technologies and services for the rehabilitation and protection of piping systems. Insituform's Energy and Mining platform, which includes Bayou, Corrpro Companies, Inc and United Pipeline Systems, protects and extends the lifecycle of pipelines and other structures. Eldridge Indest serves as President of Bayou Perma-Pipe Canada and brings with him 32 years of experience with Bayou, most recently serving as Director of Technical Planning in Bayou's New Iberia operations. John Carusiello, Perma Pipe's Senior Vice President has been appointed Vice President of BPPC.

Perma-Pipe (Bayou's joint-venture partner) is the leading manufacturer of pre-insulated piping systems (both above ground and below ground) in North America. Perma Pipe has over 45 years of experience in offering pre-insulated solutions for steam, water, oil and associated pipelines. Perma-Pipe also offers pre-insulated products for subsea oil and gas gathering, LNG terminals and long distance petroleum pipeline transportation. Bayou and Perma-Pipe have been partners in Bayou Flow Technologies (BFT) for approximately 10 years. BFT markets subsea flow assurance products and services to oil companies operating in the Gulf of Mexico.
