

Integrated X_{CORE} packages

Plunger lift kit

ABB is offering a completely integrated and engineered solution to save you time and money. The plunger lift kit can be easily integrated and automated using our extendable controller for optimization, reporting, and measurement (X_{CORE}) with our pre-configured, easy to use gas and liquid applications and I/O interface. The plunger lift kit offers:

- Field-hardened application
- Pre-programmed and tested
- No need to write your own programs
- Return on your investment in just 20.5 days*

*Figure will vary based upon installed equipment and starting well outputs
